

José G. Conde, MD, MPH
Professor, School of Medicine
Key Activity Director, RCMi CentIT2

José Guillermo Conde is Professor in the Division of Graduate Studies at the University of Puerto Rico School of Medicine. In addition, he is Director of the Center for Information Technologies and Telecommunications (CentIT2) at the UPR Medical Sciences Campus. He has previously served as Associate Program Director and Program Director of the Research Centers in Minority Institutions (RCMI) Program and Program Director for the eagle-I initiative at the Medical Sciences Campus. He has also occupied positions as Internet2 Executive Liaison and Internet2 Public Affairs Representative of the University of Puerto Rico System. He has served as reviewer for the journals *BMC Biomedical Informatics and Decision Making* and *Telemedicine and eHealth*.

José is coauthor of 29 peer-reviewed publications, and several oral and poster presentations. His current interests include applications of videoconference technologies in research and applications of the Research Electronic Data Capture (REDCap) software (<http://project-redcap.org/>). He is one of the first collaborators of the REDCap Consortium, and is currently member of the REDCap Library Oversight Committee (REDLOC), which approves inclusion of research data collection instruments in the REDCap Shared Library. He leads REDCap training and support activities at the Medical Sciences Campus, with the collaboration of CentIT2 staff.

He earned his BS (Chemistry), MD, and MPH (epidemiology) degrees at the University of Puerto Rico (UPR) System, and a residence in General Preventive Medicine at the Bloomberg Johns Hopkins School of Public Health. He teaches clinical epidemiology and public health courses at the School of Medicine.

Research Areas: Research Tools Over High-Speed Networks
