

Sabzali Javadov, MD, Ph.D.
Professor of Physiology
Seed Monies Recipient, RCMI Program

Sabzali Javadov is a Professor of the Department of Physiology, at the UPR School of Medicine.

Dr. Javadov received his M.D. degree (1983) in Medical Biochemistry from the Russian Medical University and his Ph.D. (1986) in heart physiology and biochemistry from the Russian Cardiology Center in Moscow.

Dr. Javadov's research is based on cardiac mitochondria that elucidate the contribution of mitochondria to cell death in cardiac diseases such as ischemia/reperfusion and heart failure.

Currently, the research conducted in Dr. Javadov's laboratory is funded by the National Heart, Lung, and Blood Institute (NHLBI), National Institutes of Health (1SC1HL118669).

Research Areas: Role of mitochondria in experimental infarction and ischemia/reperfusion
