

Vivian Colón, MPH, Ph.D.
Assistant Professor of Health Services Administration
Seed Monies Recipient, RCMi Program

Dr. Colón-López is Assistant Professor in the Department of Health Services Administration and Policy at the School of Public Health, University of Puerto Rico Medical Sciences Campus.

Dr. Colón-López received her doctorate in epidemiology at the University of Michigan School of Public Health.

Research interests include social inequalities and infectious diseases; epidemiology of Human Papilloma Virus infection among men, and infectious disease dynamics among vulnerable populations such as MSM, HIV positive and migrant populations. She has published peer-reviewed publications and book chapters on infectious diseases, migration status and drug use among injection drug users.

She is currently conducting an NIH 1R03DA031590 project focusing on Human Papilloma Virus among men in a metropolitan STD clinic in Puerto Rico.

Research Areas: Analysis of longitudinal data, survival analysis and advanced topics in epidemiological analysis
